Placement-Level Logical Reasoning – Puzzle Questions

Q1. Eight persons P, Q, R, S, T, U, V and W live on eight different floors of a building. The ground floor is numbered 1 and the top floor is numbered 8.

Clues:

1. P lives on an even-numbered floor.
2. Q lives immediately above P.
3. R lives on the first floor.
4. S lives three floors above R.
5. T lives immediately below U.
6. V lives on the eighth floor.
7. W lives above R.
8. U lives above S.

Who lives on the sixth floor?

A) P
B) T
C) U
D) S

- N floors above = Current floor + N
- N floors between = Current floor + N + 1

Q2. Seven persons A, B, C, D, E, F and G live on seven different floors numbered 1 to 7.

1. A lives immediately above C.
2. D lives on the top floor.
3. B lives two floors below D.
4. E lives immediately below B.
5. F lives above A.
6. G lives on the first floor.

Who lives on the fourth floor?

A) A
B) B
C) C
D) E

Q3. Eight persons A, B, C, D, E, F, G and H live on eight different floors numbered 1 to 8.

Clues:

A lives on the 3rd floor.

C lives immediately above A.

B lives two floors above C.

D lives immediately below B.

E lives on the 8th floor.

F lives on the 1st floor.

G lives immediately above F.

H lives above D.

Who lives on the fifth floor?

A) A

B) B

C) D

D) H

2. Box-Based Puzzles

Q1. Seven boxes A, B, C, D, E, F and G are stacked one above another.

1. A is above C.
2. B is immediately below D.
3. E is at the top.
4. F is at the bottom.
5. G is immediately above A.
6. C is immediately above F.

Who is immediately Above B?

A) A
B) B
C) D
D) G

Q2. Six boxes P, Q, R, S, T and U are stacked vertically.

1. P is above Q.
2. R is immediately below S.
3. T is at the top.
4. U is at the bottom.
5. P is immediately below T.
6. Q is lives above R.

Which box is third from the top?

A) P
B) Q
C) R
D) S

Q3. Seven boxes A, B, C, D, E, F and G are arranged vertically.

1. A is above B.
2. C is immediately below D.
3. E is above A.
4. F is at the bottom.
5. G is immediately above E.
6. B is above C.

Which box is fourth from the top?

A) A
B) B
C) C
D) D

3. Scheduling Puzzles

Q1. Six subjects Java, Python, SQL, HTML, CSS and JavaScript are scheduled from Monday to Saturday, one subject per day.

Clues:

1. Java is scheduled on Monday.
2. Python is scheduled immediately after Java.
3. SQL is scheduled on Wednesday.
4. HTML is scheduled after SQL.
5. CSS is scheduled on Saturday.
6. JavaScript is scheduled immediately before CSS.

Which subject is scheduled on Thursday?

A) HTML
B) CSS
C) JavaScript
D) SQL

Q2. Five candidates A, B, C, D and E attend interviews from 10 AM to 2 PM, one candidate per hour.

Clues:

1. A attends before C.
2. B attends immediately after D.
3. E attends at 10 AM.
4. C attends at 2 PM.
5. D attends after A.

Who attends at 12 PM?

A) A

B) B

C) D

D) E

Q3. Six employees A, B, C, D, E and F have presentations from Monday to Saturday.

1. A presents before D.
2. B presents immediately after E.
3. C presents on Wednesday.
4. F presents on Saturday.
5. D presents immediately before F.
6. E presents before C.

Who presents on Thursday?

A) A
B) B
C) D
D) E

4. Selection & Distribution Puzzles

Q1. A college selects students from A, B, C, D, E and F for a placement training program.
Conditions:

1. If A is selected, B must also be selected.
2. C and D cannot both be selected.
3. E must be selected if F is selected.
4. B is selected.
5. F is selected.

Which of the following must be selected?

A) A
B) C
C) E
D) D
E) B and E

Q2. A team must be formed from seven employees P, Q, R, S, T, U and V.

Conditions:

1. If P is selected, Q must be selected.
2. R and S cannot be selected together.
3. T must be selected if U is selected.
4. V cannot be selected with P.
5. U is selected.
6. R is selected.

Which statement is definitely true?

A) T is selected.

B) S is selected.

C) P is selected.

D) V is selected.

Q3. Four projects P1, P2, P3 and P4 must be distributed among employees A, B, C and D. Each employee receives one project.

Conditions:

1. A cannot receive P1 or P2.
2. B must receive P1 or P3.
3. C cannot receive P3.
4. D receives P4.
5. B receives P1.

Which project must A receive?

A) P1
B) P2
C) P3
D) P4

5. Comparison-Based Puzzles

Q1. Six persons A, B, C, D, E and F have different heights.

Clues:

1. A is taller than B.
2. C is taller than A.
3. D is shorter than B.
4. E is taller than C.
5. F is shorter than D.

Who is the tallest?

A) A

B) C

C) E

D) B

Q2. Six employees P, Q, R, S, T and U earn different salaries.

Clues:

1. P earns more than Q.
2. R earns more than P.
3. S earns less than Q.
4. T earns more than R.
5. U earns less than S.

Who earns the second-highest salary?

A) P

B) R

C) T

D) Q

Q3. Seven students A, B, C, D, E, F and G score different marks.

Clues:

1. A scores more than B but less than C.
2. D scores more than C.
3. E scores less than B.
4. F scores more than D.
5. G scores between A and C.

Who scores the third-highest marks?

A) C

B) D

C) A

D) G

6. Multiple-Condition Puzzles

Q1. Five employees A, B, C, D and E sit in a row facing north.

Clues:

1. A sits to the left of B.
2. C sits immediately to the right of B.
3. D sits at the extreme left.
4. E sits immediately to the left of A.

Who sits in the middle?

A) A
B) B
C) C
D) E

Q2. Six persons P, Q, R, S, T and U sit around a circular table facing the centre.

Clues:

1. P sits opposite S.
2. Q sits immediately clockwise of P.
3. R sits immediately clockwise of Q.
4. T sits opposite Q.
5. U occupies the remaining position.

Who sits opposite R?

A) P

B) S

C) T

D) U

Q3. Eight persons A, B, C, D, P, Q, R and S sit in two parallel rows.

- **Row 1: A, B, C and D face south.**
- **Row 2: P, Q, R and S face north.**
- Each person faces exactly one person in the opposite row.

Clues:

1. A sits at the extreme left of Row 1.
2. B sits immediately to the right of A.
3. C sits third from the left of Row 1.
4. P sits opposite B.
5. Q sits immediately to the left of P in Row 2.
6. R sits opposite A.

Who sits opposite C?

A) P
B) Q
C) R
D) S
